ABOUT ME

Backend Developer with extensive experience in Node.js and DevOps, enhancing system performance and scalability; significantly improved cost-efficiency and ensured 99.9% uptime in cloud infrastructure management.

EDUCATION

Federal University of Technology

Bachelor of Engineering
Electrical/Electronics Engineering

2019 - 2024
Minna, Niger state

SKILLS

- Node.js
- Typescript
- Prisma ORM
- System administration
- Linux operating system
- Proficient in restful apis
- Strong database management
- Experience with cloud platforms
- Software deployment

WORK EXPERIENCE

Devops engineer

Hasob integrated Services (2023 - Present)

- Collaborating with software developers to improve the build, test, and release process and minimized release errors.
- Managed Linode cloud infrastructure, automating deployment and scaling tasks to enhance cost-efficiency
- Monitored system performance with Kube-monitor, tracking uptime and response metrics to ensure 99.9% availability
- Automated routine tasks using Bash scripts, saving hours of manual efforts

Backend Developer

Ik Tech Seivces (2020-2022)

- Designed, developed, and maintained robust, scalable, and secure RESTful APIs using Node.js
- Built server-side logic, including database schemas, business logic and integrations
- Implemented data storage solutions using SQL (PostgreSQL, MySQL) databases
- Collaborated with front-end developers to integrate user-facing elements with server-side logic.
- Identified and resolved performance bottlenecks, contributing to overall system optimization and stability.
